# The Course Outline

We will cover basic obedience skills needed for agility, dog games, introduction to agility obstacles, and handling skills.

## The dog will learn and practice the following:

1. Basic obedience skills– Quick sit, quick down, stand, stay (1minute), work with focus on the handler and working on both left and right of the handler
2. Dog games– focusing games, directional games, and targeting
3. Agility obstacles– jump, tunnels, tires, pause table, and the contact trainer

## The owner will learn:

1. The proper way to teach the basic obedience skills
2. The proper time to reward with positive reinforcement.
3. How to introduce and work with your dog on the agility obstacles to have success and fun.
